

Only If You Touch Torah Will Torah Touch You! Become a Holy Roller™ ~

A Torah should be able to last hundreds & hundreds of years...
so...why do you have a need to repair your current scrolls?

How you care for your scrolls now directly correlates to how much restorations are needed in the future. Protect your investment!

Sofer On Site now offers a fresh, new and exciting way to look after Torahs: "Holy Roller"™ Program, that trains individuals in the craft of proactive Torah care and ongoing maintenance. We teach you about your own Torahs and from where problems have originated. We will show how you can actually learn to constrain the source of the problems and thereby maintain or even eliminate those problems. This process will thereby maintain and improve the condition of your Torahs, even save you thousands by eliminating future unnecessary repairs.

Our hands on program will show you what are "so called" problems, but are really only "hype"... whereas we show and explain what are significant issues and how/why they have developed. By teaching about your scrolls we demonstrate the correct way to handle and maintain them, as well as how to monitor the conditions in your "Holy Ark".

We help you establish a Holy Rollers group, train them how to observe Torahs, track real issues [in the process send us digital pictures with questions] and finally, how we can help.

This is all part of the process for Re-Adopting your own Sefer Torahs.

1. A "Holy Roller" can be any congregant... seniors, families or post B'nai Mitzvah students.
2. The Holy Rollers Club provides an opportunity for people to practically participate and contribute in a most exciting and uplifting way. An excellent way to keep post B'nai Mitzvah youth involved, or an opportunity to bring youngsters together with their elders for Jewish activities.
3. Meet regularly, i.e. once a month, to roll Torahs 6-10 sections, slowly, properly, carefully while looking inside. Learn what to look for, be shocked at what you see, ask questions concerning what you see and don't yet understand.
4. Properly rolling Torahs can lengthen their life and maintain or improve the quality of the scrolls.
5. Learn the ways to correctly: roll a Torah, kiss the scroll for an *aliyah*, use the Yad-pointer, lift the Torah and what are the serious consequences from not, G-d forbid, handling scrolls properly.
6. Learn to identify the first signs of problems, how to mark them or and how to send us a digital pictures to evaluate.
7. Learn to actually clean and sew your Sefer Torah (including how to repair tears) and learn when not to clean or sew.
8. The Holy Rollers concept should be properly introduced to the community. We will assist in setting up this project through classes and hands-on training.
