How to Use Zoom

Where do I download the latest version of Zoom?

Before joining a Zoom meeting on a computer or mobile device, you can download the Zoom app from the Zoom Download Center. [Click here](#) to start the automatic download of the Zoom Application. Your download should automatically start within seconds.

Do I need an account to use Zoom?

A Zoom account is not required if you are strictly joining Zoom Meetings as a participant. You can join as a participant without creating an account. A Zoom account is only required if you need to create your own meetings and send invitations to participants.

How to Join a Zoom Meeting

- **Join a meeting with a link:** click the link provided on [h-nt.org/calendar](#), in eKol or another email, and you will be taken to a window which will prompt you to click on a box that says "join with Zoom." This will have the Zoom application to launch on your computer. If you do not already have Zoom installed on your computer, you will be given the option to download in this window.
- **Join a meeting from the Zoom application:** Launch Zoom, and enter the "Meeting Id" number, and your personal name.

Video Preview

- When you are joining a Zoom meeting, you will see a video preview pop up that prompts you to determine whether you would like to join the meeting with your video enabled "join with video," or with your video disabled "join without video." Simply select the option to join into the meeting using the preference you have selected.
